\*\*\* ANNOUNCEMENTS \*\*\*

\*\*\*

\*\*\* FREE FILES OF THE MONTH: SEPTEMBER

Food Science & Technology Abstracts (File 51)

CLAIMS/Current Patent Legal Status (File 123)

CLAIMS/US Patents (File 340)

Each month Dialog offers an opportunity to try out new or unfamiliar sources by offering \$100 of free searching (either DialUnits or connect time) in specified files.

Output and Alerts charges are not included. For more details visit: <http://www.dialog.com/freefile/> and then take a moment to get familiar with another great Dialog resource.

\*\*\* "Thomson File Histories" are now available directly through Dialog in selected patent and trademark files. Combined with the comprehensive patent and trademark information on Dialog, file histories give you the most complete view of a patent or trademark and its history in one place. When searching in one of the patent and trademark databases, a link to an online order form is displayed in your search results, saving you time in obtaining the file histories you need. See HELP FILEHIST for more information about how to use the link and a list of files that contain the link.

EMBASE Classic (File 772) available to all customers.

NEW FILE

\*\*\*File 457, The Lancet(R)

FILE RENAMED

Simplexity Chosen as Telecommunications Procurement Provider of  
XpenseWise's Long-Distance Service Plans.

Business Wire, p2292

Oct 11, 2000

TEXT:

Business/High-Tech Editors

SEATTLE--(BUSINESS WIRE)--Oct. 11, 2000

XpenseWise.com(TM), Inc., an online marketing platform for consumer service organizations (CSOs) such as financial institutions and ISPs, announced today its strategic alliance with Simplexity, Inc., the leading provider of online telecommunications procurement services. According to the terms of the agreement, Simplexity(SM) will private label its industry-leading Xact(SM) e-marketplace architecture for XpenseWise, as well as provide information on, and access to, long-distance calling plans from nationally-branded carriers.

XpenseWise will use Simplexity's "apples-to-apples" comparison capability to present its online customers with better value alternatives to their current long-distance service plans. The addition of Simplexity's e-marketplace engine is an important building block in XpenseWise's overall strategy of working with the best "vendor aggregators" in each billing category, such as telecommunications, insurance, etc., bringing a broad array of quality plans to users.

Hosted by financial institutions and other trusted consumer service sites, XpenseWise analyzes consumers' bills, matches their usage and needs with long-distance plans provided by Simplexity and presents the user with a Wiser Choice offer, online. Using XpenseWise as part of their bill-paying experience, consumers can easily change their active service plan and switch to a new Wiser Choice plan with a single click. XpenseWise also enables users to easily review and switch to Wiser Choice service on other recurring household expenses, including auto insurance, energy needs, and many others.

"The CSOs that will be our customers continuously look for ways to provide added value to their online customers. With over 20 million Americans switching long distance plans last year, long distance is clearly an area in which the XpenseWise/Simplexity partnership can play a valuable role, reducing research time and producing real savings for those customers," said Stephen Litzow, co-founder and CEO for XpenseWise. "Our partnership with Simplexity is the latest of several key partnerships with leading vendor aggregators that we will make operational over the next six months."

Simplexity's president and CEO, Thomas J. Kilcoyne said, "Simplexity's powerful, proprietary software engine, Xact, helps users bypass the difficulties of researching the best phone plans - whether it's long-distance, Internet, DSL or wireless - allowing a neutral and unbiased look at competitive plans available in the market. Coupling XpenseWise's services with Simplexity's wide array of telecom plan offerings gives consumers the help they need to quickly and cost-effectively find and choose the best plan suited to their specific needs."

Simplexity has established direct relationships with the eight leading, nationally branded long-distance service providers. Simplexity offers plans that benefit both the individual consumer and small and mid-size businesses (SMBs). Typically SMBs lack the people and budget resources to keep up-to-date on new and emerging telecommunication services.

XpenseWise offers consumer service organizations (CSOs) - such as banks, credit unions, and portals - the opportunity to easily and effectively cross-sell preferred products, like Wiser Choice rates on credit cards and mortgage agreements to their online customers. While companies such as Simplexity focus on specific areas of consumer expenses like telecommunications services, XpenseWise is the first company to partner with vendor aggregators to provide consumers with a value-add service for the majority of consumers' major expenses.

XpenseWise helps consumers find the best plans by aggregating information about usage through either XpenseWise Automatic, which gathers information on consumers' past history of long-distance usage electronically through electronic bill presentment and payment, or through XpenseWise Direct, which lets consumers input their long-distance usage manually.

Many established companies have invested in XpenseWise, signaling their leadership in the emerging online expense management category. America Online (AOL), Washington Mutual, TD Waterhouse and Reliant Energy, among others, recently invested in XpenseWise's Series A round of funding. Several beta tests of the XpenseWise service will be deployed in Q4 2000.

#### About Simplexity

Founded in 1998, Simplexity(SM) (Herndon, VA) is redefining the way telecommunications services are bought and sold. Simplexity, the first company to offer a neutral and unbiased telecom procurement service, enables small and medium businesses as well as consumers to learn about, compare, choose and purchase 'best-of-breed' telecom services online from leading providers. The Simplexity e-marketplace currently offers a wide range of voice, wireless, Internet and data services. Built from the ground up, Simplexity's leading edge, proprietary Xact(SM) software architecture powers its Web site. The Simplexity.com(SM) site meets the strict disclosure, choice and security requirements of TRUSTe, the leading online privacy protection program.

#### About XpenseWise

XpenseWise.com(TM), Inc., based in Seattle, was founded in December 1999. XpenseWise is a patent-pending, marketing technology platform that enables consumer service organizations (CSO) to easily and effectively cross-sell their preferred products to their online consumers. Personalized recommendations will initially be offered in the following categories: long distance, credit cards, auto loans, wireless, energy, mortgage, home equity loans, auto and home insurance, Internet access and local phone. XpenseWise is a voluntary service; the company does not sell individual member data, and employs state of the art security for financial transactions and personal information. Additional information is available at [www.xpensewise.com](http://www.xpensewise.com).

Simplexity, the Simplexity logo, Simplexity.com and Xact, among others, are trademarks or service marks of Simplexity, Inc.
